

GUARD AGAINST MAY DAY DEMONSTRATIONS IN U.S.

GAS SERVICE ASSURED FOR COUPLE DAYS

Conservation May Make Further Shutdown Unnecessary

With a net gain of about 75,000 cubic feet of gas, manufactured during the 19 hours the service in this city was shut off yesterday afternoon and last night, the supply was turned on again at 7 o'clock this morning, and Superintendent Adams announced to The Telegraph that under ordinary consumption he felt safe in assuring the people of Dixon that another curtailment of service will not be necessary before Sunday at the outside; and that conservation on the part of the patrons and the efforts of the company officials to get gas making coal to this city may remove any necessity of further shut downs.

Mr. Adams stated that the company has been fortunate in getting some exceptionally good Illinois coal and as a result the daily loss will not be as large as if ordinary domestic coal had to be used. In the meantime persistent efforts are being made by the officials to get coal consigned to the local plant under way from Peoria. Officials had a definite promise last night that two cars of Kentucky coal, tied up in Peoria, would be sent out last night, but so many similar promises have been received during the past week little faith was placed in them at the I. N. U. headquarters here. The train, in which it was promised it would be sent, was due to arrive in Nelson at 2 o'clock this morning, but it had not arrived at that junction at 8 o'clock, and as a result I. N. U. officials were delayed in their efforts to ascertain if the coal had been shipped as promised.

Will Give Warning.

Mr. Adams stated that he will be able to forecast better tomorrow whether it will be necessary to shut off the gas again Sunday or Monday, and if possible ample warning will be given patrons.

The sudden suspension of service yesterday resulted in great inconvenience to hundreds of patrons—and many families were forced to eat cold dinners and suppers, for gas is the only fuel consumed in many Dixon homes for cooking purposes. Scores of diners, half cooked, had to be neglected when the gas was shut off, while other housewives managed to complete their meals on neighbors' stoves. Some reports have reached this office of meals being prepared over furnace coals.

Electric stoves and plates, gasoline and kerosene stoves, and "canned heat" became popular during the afternoon and evening. Several restaurants managed to secure electric plates for coffee urns, and at the Elks club last night an electric plate, a gasoline stove and a kerosene stove were pressed into service to prepare the lunch for the members who attended the social session.

Spooled Batch of Bread.

The Snow White Bakery of this city, was one of the heaviest losers yesterday when the gas was shut off at noon with but a very short notice. Two barrels of flour had been made into dough and was ready to go into the ovens when the bakers were notified that the gas service would be discontinued. Approximately 400 loaves of bread were a total loss on this account.

By Associated Press Leased Wire
Pittsburg, Kan., April 30.—Following the announcement of his decision that the new court of industrial relations law is constitutional Judge Andrew J. Curran in the Crawford county district court this morning granted a temporary injunction, enjoining Alexander Howat and other district and local union officials of the Kansas district of the United Mine Workers from calling a strike.

Judge Curran did not make the injunction mandatory as the state had asked, stating that it had been shown the Kansas mines now largely are at work. Judge Curran said that he would make the injunction mandatory if a showing were made in the future, during the life of the injunction, that the mines were idle.

BRAKEMAN MET TRAGIC DEATH THIS MORNING

Geo. Suprunowski is Crushed to Death in Nelson Yards

George Suprunowski, of Pekin, Ill., Northwestern brakeman, was killed almost instantly this morning at two o'clock in the south yards at Nelson. The body, which was terribly mangled, was brought to the Staples, Moyer & Schumm mortuary, where Coroner S. J. Whetston is conducting an inquest this afternoon.

The deceased was assisting other switchmen and brakemen in adjusting frogs beside the rails following the derailment of the rear trucks of a switch engine. The engineer of another heavy freight engine obeyed signs which were not intended for him and backed his train in on the same track, striking the engine behind which the young man was working. The brakeman was knocked down and caught beneath the wheel of the rear truck on the tank and his life crushed out almost instantly.

Several trainmen, who were assisting in rearing the tank of the engine were on or very near the scene at the time, and assisted in removing the lifeless form. The body was terribly mangled and parts were completely severed. He was about 21 years of age and had been in the employ of the company for several months. A brother arrived this morning to take charge of the remains which will be sent to his home in South Pekin for interment.

EIGHT-CENT FARE ON STREET CARS ASKED BY S. D. & E. SYSTEM

Petition for Increase is Filed with Utilities Commission

An 8-cent street car fare in the cities of Dixon and Sterling and a straight rate of 35 cents for traffic between the two cities, regardless of whether tickets are purchased, or fare is paid on the cars, is asked by the Sterling, Dixon & Eastern Electric Railway Co., in a petition filed with the State Public Utilities Commission, according to advices received in Dixon yesterday afternoon. The petition for publication in the Thursday edition of The Telegraph which it was necessary to send to press at noon because of the curtailment of gas service. The company's petition also asks permission to increase the rates for express and freight service.

The 8-cent city fare requested by the company is two cents higher than the present rate of 6 cents; while granting of the appeal that a straight 35-cent fare be allowed for service between the cities would result in the abolishment of the present regulations, which permit the sale of tickets for 30 cents but require the collection of a 35-cent interurban rate if cash fare is paid on the cars.

New Freight Charges

The new freight and express rates which the company desires made effective, would mean a net increase in the proceeds from this business of approximately 25 per cent. The proposed schedule filed with the commission provides a different classification of freight and express commodities; in some instances the proposed rate being lower than at present, and in other cases higher.

The notice of the proposed change of rates has just recently been filed with the commission and no information has been received as to the time and place of hearing on the petition.

Road Officials Had Fine Meeting Here

Doubtless the best meeting of highway commissioners and town clerks ever conducted in the county was held here yesterday, the sessions lasting through the day. About 40 delegates were present and many others who were interested in road building, construction and maintenance attended the sessions. County superintendents of highways from Ogle and Whiteside counties and two highway commissioners from the latter were present.

The sessions, both morning and afternoon were exceedingly interesting. H. E. Surman, head of the departments of highways offices in this city, was the principal speaker at the morning session. He discussed the various types of roads adapted to rural localities. In the afternoon Mr. Surman was heard a second time, talking upon the subject of township business, and urging the co-operation between the supervisor, highway commissioner and town clerk.

Town Clerk E. D. Palmer, Supervisor John Sterling and others were also heard. A. L. Lockett of this city conducted the department of road oiling and astonished his hearers when he stated that the price of oil would double within a year, because of the demand for this grade of oil for fuel. A lengthy discussion was indulged in, pertaining to the use of the tractor and its adaptability to road building and town clerk.

At the noon hour, the out-of-town visitors were the guests of the Dixon Chamber of Commerce at a luncheon served at the Odd Fellows hall. At this time Mayor Mark D. Smith, Edward Valle, Ray Miller, Attorney Henry Dixon and others gave short but interesting talks.

CONFIDENCE MAN TAKEN TO CITY; POHLE SATISFIED

E. E. Dowd to Answer to Charges Preferred in Chicago

Detective Sergeant Charles M. Welling, of the Chicago detective bureau, arrived in Dixon last evening and returned this morning with Fred Lester Belt, alias E. E. Dowd, who was taken in custody yesterday by the local police. Dowd is wanted in Chicago to answer to a charge of operating a confidence game and using the mails to defraud.

As was stated yesterday, Dowd's operations locally were confined to obviating the actions of a divorced woman of this city for Will Pohle, for which services he received \$160. Of this amount, Mr. Pohle was able to recover \$97.50 last evening and no local prosecution was instituted. Several parties who were interested in the operations of Dowd during his brief stay in Dixon, called at the police station yesterday afternoon and last evening. The amount recovered by Pohle, according to his own statement to the police did not commence to cover the sums which have been extracted from him of late and which are said to amount to several hundred dollars.

Dowd, who is an agent for the Illinois Adjustment Corporation of Chicago, admitted that this is not his first introduction into courts. He is said to have been short in his collections to his company, approximately \$300 and a part of the money secured from Pohle, was sent to Chicago yesterday morning by mail order, to apply to this shortage. Dowd is a married man, his wife and four-year-old daughter, residing in Chicago.

CHAMPION BIGAMIST ADMITS KILLING AT LEAST TWO WIVES

Two Others Met "Accidental" Deaths He Tells Officers

By Associated Press Leased Wire
Los Angeles, Calif. April 30.—At least two of the numerous women James R. Hurlt is alleged to have married in various parts of the country were murdered by him, two others met "accidental" deaths while with him, and he might have murdered more, according to an alleged confession made public early today by his attorney and county officials. Hurlt said he "could not remember" what happened to some of the women because of his still weakened condition resulting from two attempts to commit suicide, the reputed confession said.

Hurlt has been here several days while officers investigated reports of numerous marriages.

Married 12 or 15 Times

He married "twelve or fifteen women, probably more" the officers quoted Hurlt as saying. A desire to kill obsessed him four years ago, Hurlt was alleged to have said, and women were his special victims, there being no direct motive for their deaths and no desire to kill men, children or animals.

The women Hurlt confessed having slain were Nina Lee Deloney and Elizabeth Pryor, the officers said. They quoted Hurlt as saying he killed the former at Long Beach, Calif., with a hammer and the latter near Plum, Wash., by crushing her head with a sledge hammer.

Two "Accidental" Deaths

The partial confession, according to the officers related to the deaths of Bertha Goodrich and Alice Ludvigson, who were said to have married Hurlt. Miss Goodrich, the officers said, was tipped out of a boat in Lake Washington, near Seattle and Miss Ludvigson was drowned in a river in Idaho. Hurlt's actual words in connection with the deaths of Misses Goodrich and Ludvigson, the officers said, were that they were killed "by accident."

Hurlt told the officers, they said, where he had buried the body of Miss Deloney, near San Diego, Calif. A party, headed by District Attorney Woolwin, started for the place tonight to disinter the body.

The alleged confession was made in the county hospital where Hurlt lay on a cot still weak from wounds he inflicted on his throat and wrists immediately after his arrest in San Diego.

Besides the district attorney those present when the alleged confession was made included Hurlt's attorney J. Morgan Marmaduke, three deputy sheriffs and a newspaper reporter.

Organization has presented programs this school year but at last evening surpassed all that has been presented by a string orchestra in the history of the school. It was an artistic achievement from every point of view.

tion lifted up their voice, and cried;
and the people wept that night. And
all the children of Israel murmured
against Moses and against Aaron, and
said: 'Would to God we had died in
the land of Egypt!'" A similar crisis

comes to every individual. When
faith fails, progress is arrested. This
message will help you to meet the
crisis successfully.
Mr. Elmer Rice will sing.
Don't stay from church because
you know more than the preacher.
God may have something to say to
you worth hearing. Don't stay at

FRECKLE-FACE

Sun and Wind Bring Out Ugly Spots. How to Remove Easily.

Here's a chance, Miss Freckle-face, to try a remedy for freckles with the guarantee of a reliable concern that it will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling.

Simply get an ounce of Othine—double strength—from any druggist and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case.

Be sure to ask the druggist for the double strength Othine—as this strength is sold under guarantee of money back if it fails to remove freckles.

WAS A SURPRISE TO NEIGHBORHOOD

"They are Talking of My Recovery All the Way to Bloomington," Says Mrs. Beal.

"My wonderful recovery has not only been a grand surprise to my husband and myself, but to all our neighbors for miles around where we live," said Mrs. Ida Beal, who resides at Normal, Ill., on R. F. D. 4.

"Why, the people all along the way to Bloomington are talking about the difference Tanlac has made in me," she added, "and I feel it my duty to tell everybody about this grand medicine."

"For twelve years at least my kidneys have bothered me and I have suffered with almost unbearable pains in my back. But this was not only trouble by any means, for at the time I got Tanlac I had not enjoyed a good meal in ten years on account of a

chronic case of indigestion. There was hardly a minute when I was free from suffering and the pains in my back were so severe at times that I simply had to sit down and shut my eyes and hold my head. At times I was almost deathly sick at my stomach, and my kidneys disturbed me so often at night I couldn't get any sound sleep and my back hurt me so bad in the mornings I could hardly dress myself. It was all I could do to get in and out of bed and I couldn't stoop over and pick up anything to save my life on account of the pains in my back. I could not eat anything without suffering so from bloating, palpitation of the heart and shortness of breath that I would almost faint. I wasn't able to work but an hour or two a day and that would lay me up in bed with an awful headache."

"This is just the condition I was in when I began taking Tanlac, but I am simply feeling like a different woman now. Tanlac helped me right from the start and in a few days after I began taking it I felt so much better that I was surprised and wondered if it would continue to help me until I got well. I have taken eight bottles now and as I said everybody who knows me is talking about my recovery. My kidneys and back never bother me now and my stomach is in the best of

condition. I am eating three hearty meals a day and enjoy them all and never feel a touch of indigestion. I am enjoying good health for the first time in twelve years. Life is a pleasure to me again and I feel so grateful that I want to tell everybody about Tanlac."

"Tanalac is sold in Dixon by the Public Drug & Book Co. and by the leading druggists in every town."

John Roberts went to Chicago this morning to spend the day on business.

EICHLER BROTHERS ANNEX

A Home To Fit Every Pocketbook

IF YOU ARE RENTING, and are enjoying (?) that sensation of uncertainty as to how long it will be before the house is sold and you will have to move—goodness only knows where—come in and see us. We're the easiest people you ever saw to get up to—you don't have to hand us oranges on the end of a fish-pole. Your only regret will be that you didn't get acquainted with us long before.

Speaking of the scarcity of houses to rent reminds us of the experience of one lady who looked up just 48 hours before she found one she could get, and then she had to take a place and let the old rooster who owned it retain a room or two—just think of all that racing around and telephoning and then not being able to get a whole house for her family. Moral: See Sterling, and buy a home and thus save a lot of time and trouble.

Will be in the office on Sundays from 10 to 12 in the forenoon and from 2 to 4 in the afternoon, to take care of people who can't get away from their work during the week.

No trouble to show property. We have one or more skunk-barouches on duty days, nights and Sundays.

Govt. Ownership of
Roads Step Toward
Socialism—Markham

Louisville, Ky., April 29.—Government ownership of railroads is a step toward socialized government, according to Charles H. Markham, president of the Illinois Central Railroad company, principal speaker at a meeting of the Transportation club of Louisville last night.

"If it is true that private ownership of railroads is being given its final trial, it is also true that all American institutions are on trial," Mr. Markham continued and added:

"As a result of two years of government operation of railroads, organized labor not only opposed return of roads to owners but made demands for their retention under conditions that would make the employees virtual managers and beneficiaries. It is traveling a long way in two years. At that increased speed, how long would it take to nationalize the coal mines, milling interests, distribution of food, and, finally, the resumption of title to the land itself?"

Concerning the transportation act, Mr. Markham said it was the first legislation so far devised to regulate railroads with a view to serving both users and owners of the roads.

Ruddy Cheeks—Sparkling Eyes—
Most Women Can Have

Says Dr. Edwards, a Well-Known
Ohio Physician

Dr. F.M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system.

If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Thousands of women and men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep them fit. 10c and 25c.

Would Provide for
One Final Election
in State Each Year

Springfield, Ill., April 29.—The suffrage committee of the Illinois constitutional convention has completed a new draft of section 8 of the suffrage article which the committee members believe will meet the approval of delegates who objected to the section when it was presented last week.

This section would eliminate the frequent spring elections held in Illinois and would combine them to be

held the first Tuesday after the first Monday in November. The section as originally presented drew the attack of delegates who thought it would eliminate primary elections. To meet these objections the section has been amended so as to apply to all "final elections."

WHY CHILLY WEATHER BRINGS RHEUMATISM
Says skin pores are closed and uric acid remains in blood.
Rheumatism is no respecter of age, sex, color or rank. If not the most dangerous of human afflictions it is one of the most painful. Those subject to rheumatism should eat less meat, dress as warmly as possible, avoid any undue exposure and, above all, drink lots of pure water.
Rheumatism is caused by uric acid which is generated in the bowels and absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine; the pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly, cold weather the skin pores are closed thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate this uric acid which keeps accumulating and circulating through the system, eventually settling in the joints and muscles causing stiffness, soreness and pain called rheumatism.
At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.
Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism. Here you have a pleasant, effervescent lithia-water drink which overcomes uric acid and is beneficial to your kidneys as well.

College Athletes in Pa. University Relay

Philadelphia, April 29.—Scores of college athletes from the east and middle west arrived today to compete in the University of Pennsylvania relay carnival on Friday and Saturday. Among them were teams from Pennsylvania state college, University of Missouri, Illinois, Chicago, Cedar Rapids, Mason City, Wisconsin and Ames. The Redlands, Cal., university team has been here several days and hundreds of other star performers are expected tomorrow.

The entry list includes representatives from nearly all the leading colleges and schools in the country. One of the feature events is the two mile college relay championship of the United States in which the Oxford-Cambridge team is among the entrants. The British team will meet some of the fastest men in American colleges. Entries include teams from Yale, Pennsylvania, Cornell, Illinois and Ames, the western two mile champions, who last Saturday covered the distance within one-fifth of a second of the world's record.

The British runners also will compete in several other events. Coach Al Schrubbs said today all his men, including W. G. Tatham who injured his ankle on the voyage across the Atlantic, are in fine condition and that he expected them to give a good account of themselves.

ROCHELLE
Rochelle, April 28.—Geo. W. Sims, Sr., of Dayton, Ohio has been visiting his sisters, Misses Minnie and Frances Simons this week.
Mr. Will Healy and children, of Freeport, spent the week-end with Rochelle relatives.
William Meisters moved into the new five-room Reed bungalow, which has a frontage on Seventh street, on Tuesday.
Arthur C. Atwater made a business trip to Elkhart, Indiana and Chicago leaving Tuesday afternoon.
J. H. Coley left on Monday for a business trip through Iowa and Minnesota.
A. W. Guest, Dr. F. G. Crowell, and Adin Slaughter, of Rochelle, and S. W. Crowell, of Oregon, returned from a tour of the oil fields of Oklahoma, Texas and Louisiana, Saturday noon.
Local dealers advanced the price of Coca Cola and other soft drinks and sundries, Monday "Coke" jumped from 6 to 10 cents and the reason assigned for the advance is that Coca Cola has advanced in price in its raw state to \$2.35 a gallon. So if Coca Cola now possesses a "kick" the kick comes from the ultimate consumer.

The following item appeared in B. L. T's column in the Chicago Sunday Tribune:
"I Know a Bank."
Sir: For assistant treasurer of the Academy I nominate Miss Iva Stocking of Lindenwood, Ill. C. A. Y.
Two local insurance agents are all smiles these days. Ben L. Beyer representing the New York Mutual Life has just completed writing over a quarter million dollars worth of business, and together with his wife and son will enjoy a trip to San Francisco, California, leaving about the first of June. D. J. Hooley representing the New York Life once more makes the \$200,000 club and will journey to Havana, Cuba, at the expense of the company.
The annual Junior-Senior reception of the Community High School will be held Friday night.
Maxson Brothers, bakers, have installed a fine double deck oven in the rear of the C. A. Lang building, which will bake over 300 loaves of bread at once. Their other machinery will be driven by electricity and the plant provides for a bake shop in the front of the store. They will also retain their present location on the corner

of Lincoln Highway and Fourth Ave. James Sherlock's new garage on the corner of Sixth street and Lincoln Ave., is nearly completed and will cost about \$50,000. The enormous two-story brick has, however, been in actual use for the past two weeks.
The garage is well planned and possesses all the modern conveniences.
The building is a two-story brick, 66x124 feet with east and south fronts of 66 and 124 feet respectively.
The roof is of composition and supported by mammoth trusses. A large skylight in the center of the roof furnishes light for the work room and two 20-inch ventilators radiate fresh air.
The first floor is of cement and the second flexible on two inch plank supported by 2x12 inch joists set twelve inches apart over 20 inch beams. The floor space is over 8,000 square feet.
A 5,000 pound capacity Otis elevator is installed at a cost of \$2,300 and will carry any passenger car manufactured.
The floor plan of the second floor

gives: north side, work shop; east end, "Parts Department"; office; south side, storage; northwest corner, paint shop; toilet adjacent to the workroom.
Ground floor plan—large salesroom with large plate glass display windows in the southeast corner; with an office with a south entrance adjoining; with a splendidly appointed "Ladies Rest Room" just to the right of the entrance.
There is also a room for washing cars.
The heating plant is a two-section ideal steam boiler with 2,700 feet of radiation ample to heat the entire building. The coal bin holds a 50-ton carload of soft coal, which is filled from above by dumping in shoots.
The building is electrically lighted throughout.

Reckless Persons Hit By Lloyd George

London, April 29.—Premier Lloyd George speaking in the house of commons today on the subjects of the recent allied conference at San Remo said that before the conference there had been some misunderstandings serious enough in themselves, but made grave by deliberate fomenting on the part of very reckless persons.
"But," he continued, "I am glad to say that the success is once more clear. So far as I can see everyone is satisfied with what happened at San Remo."
The premier declared the conference had been the most remarkable one in every respect held since the armistice, and that it dispelled all suspicion that the Versailles treaty was not to be enforced.

William Curran, son of Mr. and Mrs. Daniel Curran, of Steinmann addition, who has been very ill of pneumonia, is somewhat improved.

German Forces Will Be Counted By Units

Paris, April 29.—It is understood that Dr. Goepfert, head of the German mission in Paris, who called on Premier Millerand yesterday afternoon intended to hand the premier a note requesting evacuation of Frankfurt by the French troops in view of the fact that the German forces in the neutral zone had been reduced to the 17,000 men permitted in the area by the agreement of August, 1919.
M. Millerand, however, explained that the allies preferred to stand by the original agreement that the troops be counted by units. He called attention to the fact that the number of units in the neutral zone still exceeded the number allowed and said the French evacuation depended upon
